

## Unit - 1 : Introduction to Internet

Que No	Question Description	Option A	Option B	Option C	Option D	Correct Option
1	What is the full form of ARPANET.	Advance Research Project Agency Network.	Advance Research Project Association Network.	Applied Research Project Agency Network.	None of these.	A
2	ISP Stand for _____	Internet Service Provider	Internet Server Provider	internet service packet	internet server product	A
3	Servers are computers that provide resource. In HTTPS, S means to other computers connected to a _____	Client	Mainframe	Supercomputer	Network	A
4	A program that is used to view websites is called a _____	Web viewer	Browser	Spreadsheet	Word processor	B
5	Protocol which assign IP address to the client connected in the internet is _____	DHCP	IP	RPC	HTML	A
6	Internet which is accessed by transmitting Digital data over the wires of a local telephone network is provided by _____	leased Line	Digital Subscriber Line	Digital Signal Line	Land line	B
7	Which tool is used to get information from internet?	Social Network	Search Engine	router	Gateway	B
8	URL Stand for _____	Uniform Resource Locator	United Resource Locator	Uniform Resource Location	Uniform Research Locator	A
9	in which year internet is invented?	1979	1978	1969	1970	C
10	what is full form of WIFI	wired fidelity	wireless fidelity	wire frequency	wired functionality	B
11	What is internet?	an internal communication system	a large network of networks	a communication system for the Indian Government	all of these	B
12	To join the internet, the computer has to be connected to a _____	internet architecture board	internet society	internet service provider	different computer	C
13	Internet works on _____	packet switching	circuit switching	both packet switching and circuit switching	data switching	A
14	The Internet was originally a project of which agency?	ARPA	NSF	NSA	None of these	A
15	Who is the father of Internet ?	Vint Cerf	Tim Berners Lee	Charles Babbage	None of these	A
16	The equipment needed to allow home computers to connect to the internet is called a _____	Modem	Gateway	Monitor	Peripheral	A
17	Which connection type provides direct internet access?	Leased Connection	Dial up Connection	Broadband Connection	Cable Model Connection	A
18	_____ is known as internal private network.	Internet	Intranet	Extranet	None	B

Que No	Question Description	Option A	Option B	Option C	Option D	Correct Option
19	Which device guarantee for sending message to right destination?	CPU	Modem	Router	Monitor	C
20	Which of the following is not part of communication services?	Email	Telnet	VoIP	FTP	D
21	In which type of Internet connection A modem (internal or external) connects to the Internet after the computer dials a phone number.	Cable based	Wireless	Dial-up	Broadband	C
22	Broadband is also known as	Dial-up	DSL	Wireless	Cable Based	B
23	The speed of wireless Internet connection is upto	10Mbps	5 Mbps	15 Mbps	20 Mbps	D
24	_____ can be described as a network of computers or a private network designed for a specific group of users	Internet	Intranet	Extranet	all of these	B
25	Which of these is not a Communication Services available that offer exchange of information with individuals or groups?	Telnet	FTP	E-mail	IRC	B
26	A computer on internet are identified by :	E-mail address	IP address	Any address	None of these	B
27	Moving from one website to another is called :	Downloading	Browsing	Attaching	Uploading	B
28	HTML is used to create	machinge level code	High level code	Web page	Web server	C
29	In HTTPS, S means	Secret	Secure	Socket	Software	B
30	Which one of the following is not a search engine?	Bing	Google	Yahoo	windows	D
31	In which method we can connect to Internet?	Dial-up	Cable	Leased Line	all of these	D
32	_____ is required for the internet connection.	Modem	Model	Internet Explorer	Search Engine	A
33	Which is not the search engine	Altavista.com	Google.com	Facebook.com	Yahoo.com	C
34	Servers are computers that provide resources to other computers connected to a	Client	Mainframe	Supercomputer	Network	D
35	A program that is used to view websites is called a	Browser	Web viewer	Spreadsheet	Word processor	A
36	What is a web browser?	a program that can display a web page	a program used to view html documents	it enables user to access the resources of internet	all of the mentioned	D
37	URL stands for _____	unique reference label	uniform reference label	uniform resource locator	unique resource locator	C
38	Expansion of FTP is _____	Fine Transfer Protocol	File Transfer Protocol	First Transfer Protocol	Fast Transfer Protocol	B
39	The concept of the internet was originated in	1970	1969	1971	1981	B
40	In 1969, ARPANET was developed by which country?	France	England	USA	Russia	C
41	Inventor of www (World wide web) is . . . . .	Bill Gates	Lee. N. Feyong	Tim Berners Lee	Tom Berners Lee	C

Que No	Question Description	Option A	Option B	Option C	Option D	Correct Option
42	The process of transferring files from a computer on the Internet to your computer is called	Uploading	Forwarding	FTP	Downloading	D
43	A Web site's front page /main page is called	Browser Page	Search Page	Home Page	Bookmark	C
44	Verification of a login name and password is known as:	configuration	accessibility	authentication	logging in	C
45	Moving from one website to another is called :	Downloading	Browsing	Uploading	Attachment	B
46	A computer on internet are identified by :	e-mail address	street address	IP address	None of the above	C
47	Two or more computers connected together with capability of exchanging information is called?	WWW	HTML	Internet	Network	D
48	Networks that usually take the form of a small office network are called?	LAN	WAN	MAN	None of these	A
49	ARPA stands for?	Advance Research Projects Agency	Automatically Research Projects Agency	Advance Research Practice Agency	Advance Research Projects Authority	A
50	Which Internet service provides communication?	Email	Newsgroup	Internet Relay Chat	All Of these	D
51	Which is / are the example of search engines?	Google Chrome	Duckduckgo	Bing	All Of these	D
52	The web is based on a standard structuring language Called?	HTML	JAVA	C & C++	HTTP	A
53	What is the full form of FTP?	File Transfer Protocol	File Transport Protocol	File Trade Protocol	File Transmission Protocol	A
54	Which of the following is valid type of Internet Connection?	Dial Up Connection	Mobile Hotspot	Direct Internet Access	All of these	D
55	DNS stands for?	Domain Name Server	Domain Name System	Domain Network System	Domain Network Server	A
56	SGML stands for?	Standard Generalized Markup Language	Simple Generalized Markup Language	Standard General Markup Language	Simple General Markup Language	A
